DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-17, drawn to a registration device for a sheet material article handler, classified in class 83, subclass 401.
 - II. Claims 18-20, drawn to a method for registering a sheet material article, classified in class 83, subclass 13. The inventions are distinct, each from the other because of the following reasons:
2. Inventions II and I are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the method could be practiced by a device wherein the driver does not include a servo motor.
3. This application contains claims directed to the following patentably distinct species of the claimed invention:
 - I. Claim 5
 - II. Claim 6
 - III. Claim 7

Upon election of one of the inventions from paragraph 1 above, applicant is required under 35 U.S.C. 121 to further elect a single disclosed species for prosecution

on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, it appears that no claim is generic.

4. This application contains claims directed to the following additional patentably distinct species of the claimed invention:

IV. Claim 16

V. Claim 17

Upon election of one of the inventions from paragraph 1 above and one of the species from paragraph 3 above, applicant is required under 35 U.S.C. 121 to further elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claim 1 is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that are elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Art Unit: 3724

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

A telephone call was made to William C. Gehris on April 28, 2003, which not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to John Windmuller whose telephone number is 703 305-4988. The examiner can normally be reached on M-F 8-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Allan Shoap can be reached on 703 308-1082. The fax phone numbers for the organization where this application or proceeding is assigned are 703 872-9302 for regular communications and 703 308-9302 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703 308-

1148.
